ISSUES 1–6

JULY–DECEMBER 2002

MUSCLE & NERVE

Official Journal of the American Association of Electrodiagnostic Medicine

EDITOR

Michael J. Aminoff, MD, DSc, FRCP
Department of Neurology
University of California—San Francisco
San Francisco, California

PAST EDITORS

Walter G. Bradley, DM, FRCP
(Founding Editor, 1978–1987)

Jun Kimura, MD
(Editor, 1988–1997)

EDITORIAL PRODUCTION

Lillian Solondz
John Wiley & Sons, Inc.

ASSOCIATE EDITORS

Robert L. Barchi, MD, PhD
Philadelphia, Pennsylvania

David Burke, MD, DSc
Sydney, Australia

Andrew A. Eisen, MD
Vancouver, BC, Canada

John Kincaid, MD
Indianapolis, Indiana

Hiroshi Mitsumoto, MD
New York, New York

Richard K. Olney, MD
San Francisco, California

Lawrence R. Robinson, MD
Seattle, Washington

Stephen G. Waxman, MD, PhD
New Haven, Connecticut

EDITORIAL BOARD

James W. Albers, MD, PhD
Ann Arbor, Michigan

Anthony A. Amato, MD
Boston, Massachusetts

Pierre Bouche, MD
Paris, France

Stirling Carpenter, MD

No part of this publication may be reproduced in any form or by any means, except as permitted under section 107 or 108 of the 1976 United States Copyright Act, without either the prior written permission of the publisher, or authorization through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, (978) 750-8400, fax (978) 750-4470.

The contents of this journal are indexed or abstracted in Biological Abstracts/BIOSIS, Social Sciences Citation Index/Social SciSearch (ISI), Current Awareness in Biological Sciences (CABS), Current Contents/Life Sciences, EMBASE/Excerpta Medica, Index Medicus/MEDLINE, Research Alert (ISI), Reference Update, Science Citation Index (ISI), and SciSearch Database (ISI).

Address for manuscript submission: *Michael J. Aminoff, MD, DSc, FRCP, Department of Neurology, University of California, San Francisco, California 94143-0114. Tel: 415 502 3850. Fax: 415 502 1969.*

Disclaimer: *All articles published, including but not limited to original research, clinical notes, editorials, reviews, reports, letters, and book reviews, represent the opinions and views of the authors and do not reflect any official policy or medical opinion of the American Association of Electrodiagnostic Medicine, the institutions with which the authors are affiliated, or the Publisher unless this is clearly specified. Articles published herein should not be relied upon as recommending or promoting a specific method, diagnosis, or treatment by physicians for any particular patient or disorder.*

Although the Editor and Publisher believe that drug selections and dosages and the specifications and usage of equipment and devices as set forth herein are in accord with current recommendations and practice at the time of publication, they accept no legal responsibility for any errors or omissions, and make no warranty, express or implied, with respect to material contained herein.

Subscription price: (Volumes 25–26, 2002): *Print only: $1,565.00 in US, $1,685.00 in Canada and Mexico, $1,787.00 outside North America. Electronic only: $1,565.00 worldwide. A combination price of $1,644.00 in US, $1,764.00 in Canada and Mexico, $1,866.00 outside North America, includes the subscription in both electronic and print formats. Personal rate: $350.00 in North America, $422.00 in rest of world. Subscriptions at the personal rate are available to individuals. All subscriptions containing a print element, shipped outside US, will be sent by air. Payment must be made in US dollars drawn on a US bank. Claims for undelivered copies will be accepted only after the following issue has been delivered. Please enclose a copy of the mailing label. Missing copies will be supplied when losses have been sustained in transit and where reserve stock permits. Please allow four weeks for processing a change of address. For subscription inquiries, please call (201) 748-6645; E-mail: SUBINFO@wiley.com*

Postmaster: *Send address changes to* Muscle & Nerve, *Subscription Distribution, c/o John Wiley & Sons, Inc., 111 River Street, Hoboken, NJ 07030.*

Advertising/Sales: *Inquiries should be forwarded to M.J. Mrvica and Associates, Inc., 2 West Taunton Avenue, Berlin, New Jersey 08009, (856) 768-9360.*

MUSCLE & NERVE

Official Journal of the American Association of Electrodiagnostic Medicine

AUTHOR INDEX TO VOLUME 26

This index lists, in alphabetical order, the names of authors of all articles and book reviews. Full citation is provided under the first author only, with cross reference to this author made from entries to other authors. Book reviews are distinguished from articles by the letter B after the page number.

A

Abe M, see Horiguchi T
Adelman JP, see Jacobson D
Alaedini A, see Briani C
Allardt A, see Wasner G
Amato AA, see Wolfe GI

MUSCLE & NERVE

Official Journal of the American Association of Electrodiagnostic Medicine

SUBJECT INDEX TO VOLUME 26

This index gives the first page of the article in which the indexed subject occurs.

A

Acellular muscle, 87
Acetylcholine receptor, 784
Actinin, 791
Acute quadriplegic myopathy, 499
Adenine nucleotide translocator-1 gene, 265
Aging, 597
Airway muscle, 94
AKT, 644
Amyloidosis, 173
Amyotrophic lateral sclerosis, 232, 274, 438, 459, 539, 597, 636
Anal sphincter electromyography, 389
Ankle angle, 630
Anomalous superficial radial nerve, 716
Anterior interosseous nerve, 841
Anti-GQ1b antibody, 845
Antidromic nerve conduction, 421
Apoptosis, 79, 265, 383, 644, 777
Astrocytes, 459
Autoimmunity, 702
Autonomic function, 669
Autonomic nervous system, 513
Autonomic neuropathy, 173, 669
Autosomal dominant progressive external ophthalmoplegia, 265
Axon regeneration, 527
Axonal degeneration, 189
Axonal excitability, 769
Axonal neuropathy, 471
Axonal regeneration, 87

B

Basal lamina, 87
Bax, 777
Bcl-2, 383, 777
Bcl-x_L, 777
Bickerstaff brainstem encephalitis, 845
Bickerstaff encephalitis, 845
Biopsy methods, for muscle capillarization, 546
Blink reflex, 14, 845
Blood–nerve barrier, 218
Book Review
Disorders of Voluntary Muscle, 7th Edition, 293
Electrodiagnosis in Diseases of Nerve and Muscle: Principles and Practice, 3rd Edition, 720
Handbook of Clinical Neurology, Vols. 74 and 75: The Autonomic Nervous System, Part I and Part II, 430
Neuropathic Pain: Pathophysiology and Treatment, 850
Pathology of Skeletal Muscle, 2nd Edition, 150
Sensorimotor Control, 558
Books received, 558
Botulinum toxin, 784, 804
Botulinum toxin A, 395, 828
Botulinum toxin F, 395
Brachial plexus, 421
Brain, 597
Brain glucose metabolism, 506
Brainstem auditory evoked potential, 270
Brainstem reflexes, 14, 270
Bupivacaine hydrochloride, 79

C

C-nociceptor, 113
Calcitonin gene–related peptide, 348
Capillaries, 546
Capsaicin, 113
Cardiovascular autonomic dysfunction, 669
Carnitine palmitoyltransferase II, 492
Carpal tunnel syndrome, 356, 798
Cat soleus muscle, 252
Central conduction time, 533
Charcot–Marie–Tooth disease, 608
Cholinergic crisis, 1
Chronic arterial insufficiency, 471
Chronic compressive mononeuropathy, 435
Chronic inflammatory demyelinating polyneuropathy, 189, 608, 669
Chronic peripheral arterial occlusive disease, 471
Classification of childhood SMA, 4
Clinical classification of neuropathy, 212
Clinical trials, 549
Collagen VI, 696
Comparison of botulinum toxins A and F, 395
Compound heterozygosity, 492
Conduction block, 145, 356
Conduction velocity, in diabetes, 232
Congenital muscular dystrophy, 696
Contractile properties, 94, 636
Control of movement, 326
Corneal reflex, 14
Corticospinal tract, 155
Countermand, 326
Cranial nerves, 14
Creatine kinase, 141, 832
Cricopharyngeal muscle, 729
Critical illness polyneuropathy, 499
Cryptogenic neuropathy, 413
Cyclooxygenase, 459
Cyclophosphamide, 31

D

Decrementing response, 279
Deglutition, 729
Dejerine–Sottas disease, 608
Demyelination, 189, 232, 769
Denervation-induced hyperexcitability, 817
Design constraints, of muscle, 740
Diabetic neuropathy, 173, 232, 435
Diagnostic accuracy of electrodiagnostic testing, 201
Diagnostic guidelines, for neuropathy, 288
3,4-diaminopyridine, 71
Diaphragm, 71
Digital SEPs, 533
Dipolar analysis, 44
Direct neurotization, 362
Dose–response curve, 395
Doublets, 477
Duchenne muscular dystrophy, 506, 513
Dysphagia, 729
Dystroglycan, 644
Dystrophin, 513

E

Ectopic endplates, 791
Electrically elicited muscle contractions, 681
Electrocardiogram, 513
Electrodiagnosis, 201, 838
Electromechanical activity, 238
Electromyography, 201, 225, 288, 367, 520
Electron microscopy, 265

Electrophoresis, 288
EMG crosstalk, 681
EMG modeling, 681
Encephalopathy, 702
End-of-fiber effect, 681
End-plate noise, 784
Endothelium, 218
Endplate potential, 810
Entrapment neuropathy, 838
Episodic ataxia, 299
Excitation–contraction coupling, 673
Excitotoxicity, 438
Exercise, 832
Exercise intolerance, 492
Experimental muscle pain, 708
Extensor digitorum brevis test, 828
External anal sphincter muscle, 389
Extracellular matrix, 644

F

F wave, 471
Fabry's disease, 622
Facial nerve, 94
Facilitatory effect, 37
False motor points, 557
Familial amyloid polyneuropathy, 417
Fas antigen, 383
Fasciculations, 702
Fatigue, 122, 194, 238, 404, 520
Fatiguing muscle contractions, 367
Fiber type, of muscle, 740
Fiber-type distribution, 101
Fiber-type grouping, 101
Fibronectin, 696
Fibronectin receptor, 696
Fisher syndrome, 845
FK506 binding protein, 348
Foot and ankle function, 630
Foot drop, 340
Foot muscles, 557
Force-frequency relationship, 477
Force–velocity relationship, 740
Free fatty acids, 823
Functional electrical stimulation, 374, 477

G

Generator sources, 44
Genetic basis of childhood proximal SMA, 4
Genotype/phenotype correlation, 492
Glial cell line–derived neurotrophic factor, 206
Glutamate receptors, 438
Glutamate transporters, 438
Glycogen depletion, 252
Glycosaminoglycans, 713
Granulomas, 553
Green fluorescent protein, 136
Group IV afferents, 194

H

H reflex, 374
Hand-held myometry, 64
Heparan sulfate, 713
Hereditary amyloidosis, 417
Hereditary sensory autonomic neuropathy, 173
2,5-hexanedione, 132
Hill equation, 740
Hill-type muscle model, 477
Hindlimb unloading, 740
Hydration, 225
Hypoglycemia, 492
Hypokalemia, 283
Hypothyroid myopathy, 141
Hypothyroidism, 141
Hypoxemia, 194

I

Idiopathic hyper-CK-emia, 832
Idiopathic painful neuropathy, 413
Idiopathic sensory neuropathy, 413
Immunohistochemistry, 55, 265
Immunoresistance, 828
Immunosuppressive therapy, 31
Inflammatory neuropathy, 413
Insulin-like growth factor I, 87
Insulin-like growth factor receptors, 55
Intermittent stimulation, and EPP amplitude, 810
Intrapartum plexopathy, 340
Intravenous immunoglobulin, 549
Ion channel, 702
Ion channels disorders, 299
Ischemia, 435
Ischemic neuropathy, 471
Isokinetic, 225
Isokinetic work, 367

J

Juvenile muscle, 804

L

Lactate transport, 101
Laminin, 644
Life-threatening respiratory insufficiency, 1
Lipids, 823
Lipoprotein lipase, 823
Lipoprotein metabolism, 823
Liposome, 136
Load clamp, 740
Long QT syndrome, 299
Low-frequency fatigue, 673
Lower trunk, 421
Lumbosacral plexus, 340
Lumbosacral trunk, 340

M

Macrophage apoptosis, 79
Magnetic resonance imaging, 270
Magnetic stimulation, 486
Masseter reflex, 14
Maximal shortening velocity, 740
Maximal voluntary contraction, 708
Maximal voluntary isometric contraction, 64
Maximum shortening velocity, 404
McLeod myopathy, 424
McLeod syndrome, 424
mdx mice, 513
Mechanical ventilation, 31
Mechanomyography, 225, 367
Medial antebrachial cutaneous nerve, 421
Medial calcaneal nerve, 654
Medial calcaneal neuropathy, 654
Medial cutaneous nerve of the forearm, 421
Medial plantar nerve, 212
Median nerve cross-sectional area, 798
Median nerve stimulation, 122
Median neuropathy, 356
Membrane potential, 283
Metabolic myopathy, 492
Microdialysis, 520
Microglia, 459
Microvasculature, 218
Miniature end-plate potentials, 784
Mitochondrial abnormalities, 597
Mitochondrial DNA, 597
Mitochondrial encephalomyopathies, 265
Mitochondrial myopathy, 520
Molecular analysis, 274
Monocarboxylate transport, 101
Monocyte chemoattractant protein–1, 79
Motoneuron, 155, 791
Motor conduction, 769
Motor conduction block, 841
